the dark age of greece is the latest entry in the ages in chaos series first put forth by the late
immanuel velikovsky in 1952 and is one more key brick in the reconstruction of ancient history
proposed by him beginning with the termination of egypt s middle kingdom and the many
centuries that followed whose dated credibility he challenged the fundamental thesis of this
current book is that there was no true dark age but resulted from the forced capitulation on the
part of classicists and others to the overriding influence of ancient egyptian chronology the
specific outcome of the preceding was the creation of an inexplicable 500 year lacuna ca 1250
750 bc between the end of the mycenaean age and the rise of classical greece comprising some
500 pages of text and references the dark age of greece contains contributions by velikovsky
himself and three of his associates from a detailed and vigorous study of the trojan war
preclassical archaeology stratigraphy architecture sculpture ceramics jewelry sports warfare

language literature heroes and divinities as well as comparisons with later classical and oriental examples of similar artifacts the greek dark age is revealed to be completely spurious the elimination of the greek dark age thereby reaffirms the need to correct egyptian chronology which when adjusted now makes the history of bronze age greece and that of the anatolian hittites completely whole and sensible

thirty two thousand years ago a gifted child is born into a world most would consider paradise there has not been a war or hunger for some eight thousand years the ozone layer is four times thicker than it will be later genetic abnormalities are nearly nonexistent and there are no diseases as she matures mona ann lisa just one of a highly advanced civilization on earth prepares to fulfill her destiny unbeknownst to mona a change in the political and military leadership has been ongoing for decades now something new is afoot after she eventually becomes the youngest captain of the planet's fleet of spaceships her career blossoms as she faces challenges and threats to her civilization mona is the best chance the species has to survive while she accepts her many working titles mona knows that levie her sentient artificial intelligence entity is the true brains of the operations as a chain of events unfolds mona levie and others must jump into action as the health and well being of all sentient life precariously hangs in the balance in this science fiction novel set thirty two thousand years ago a child prodigy transforms into the captain of a fleet of spaceships and embarks on a journey to save humanity

sir karl popper the great philosopher said the real mystery in life is that the universe itself seems to be creative this book is an introduction to creativity with an essay on the connection between faith and fiction it contains a few of the author's favorite ancient cultural myths some folktales of recent times and some original stories these are ideal for reading to children this book includes stories for families from our ancestors great and unknown some are contemporary individualistic doodles in the sands of time that readers may simply enjoy all of us should be telling the stories of our imaginations for the sake of our children and future generations not only for their pleasure but wherein they might find a way forward through the mysteries and changes in life the book has commentaries on the myths and finishes with an explanation of the purpose of myths that concludes with a challenge for modern myth making
